

## AR10x96

The Original Low Profile airport barricades. The AR line is your maintenance free answer to work zone delineation. The only 100% FOD Free low profile airport barricade.

## The Original Airport Barricade

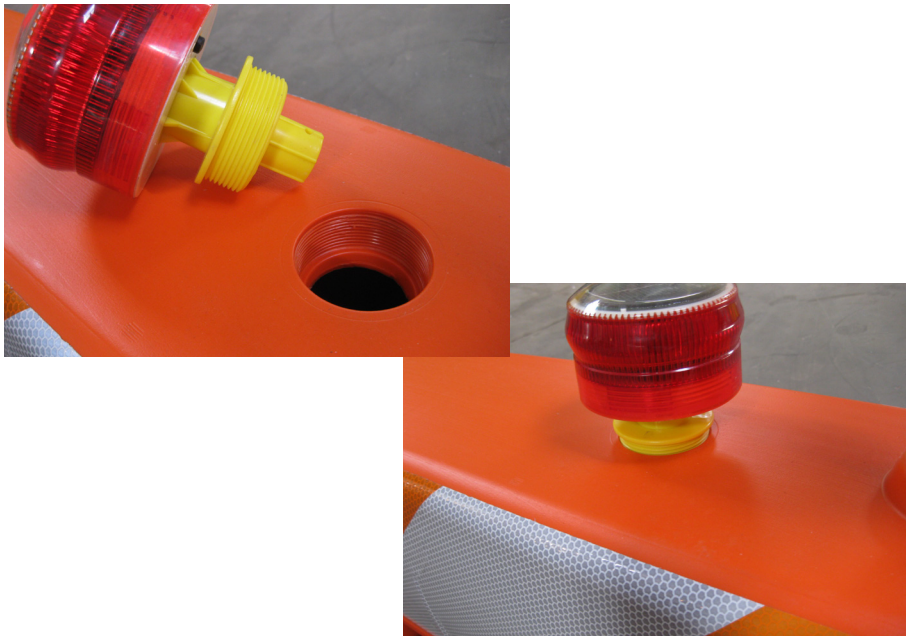

**100% FOD Free system. No nuts and bolts needed.**

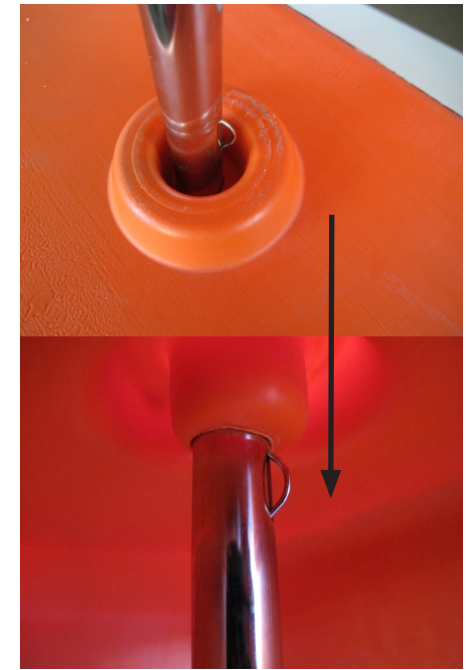

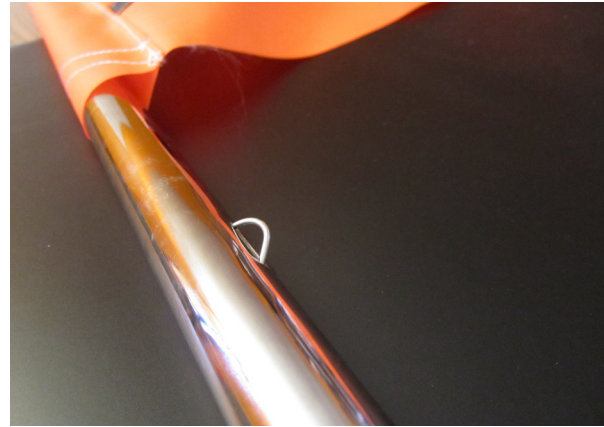

**3-degree angled sides to help pilot visibility .**

Our ultra low profile barricades mark off hazardous construction zones. Since they are made from non conductive material they won't spark if struck by a metal object. The AR10x96 v.2 is 100% FOD free when it is used with the CO1 light and AR Flag.

**CO1 lights screw directly into barricades.**

**AR Flag with locking push pin and steel dowel.**

## Features & Benefits:

- Jet blast resistant barricade
- 100% FOD Free system with AR Flag and CO1 Light
- Requires no additional hardware or parts
- Meets FAA A/C 150/5370-2F
