

PORT-A-LITE®

PAL 1250 | PAL 2500

STANDARD FEATURES

- **SHO-HD parallel lamp fixtures** provide more lumens per fixture than competitive models
- **Caster Brakes** on PAL 2500W4 enhances safety
- **Winch-up tower** on PAL 2500W4 for ease of set up and infinite positioning capabilities
- Utilizing power from 1-120V outlet, the Allmand SHO parallel lamp fixture, equipped with a 1250 watt metal halide lamp, illuminates five times more area than a 1000 watt quartz light
- **Wheels** feature heavy-duty ball-bearings for long life and ease of positioning
- **Welded steel frame** with urethane and powder coated components extend product life
- **Insulated lamp** supports isolate lamp from damaging vibration and extends average lamp life
- **Frosted lens** diffuses light to comfortably reduce glare

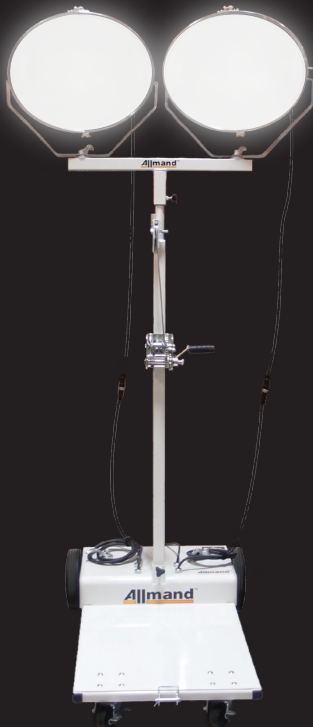

Brighter. Warmer. Safer.
Reliability, performance, and integrity since 1938
